DATA USE AGREEMENT AND LICENSE

For the QAU-IBA Neutrophil Characterization Microscopy Dataset

Dataset Providers:

- Department of Biochemistry, Quaid-i-Azam University (QAU), Islamabad, Pakistan.
- Department of Mathematics & Computing, Institute of Business Administration (IBA), Karachi, Pakistan.

By downloading, accessing, or using this dataset (including all digital microscopy images, annotations, and associated feature data), you (the "User") acknowledge and agree to be bound by the following legally binding terms and conditions. If you are accepting on behalf of an institution or research lab, you represent that you have the authority to bind that entity.

1. License & Permitted Use

The Dataset Providers hereby grant the User a non-exclusive, worldwide, royalty-free, non-transferable license to use the dataset strictly under the terms of the **Creative Commons Attribution-NonCommercial 4.0 International (CC BY-NC 4.0)** license.

- **Permitted:** You may copy, distribute, and adapt the dataset for academic research, education, and development of machine learning or artificial intelligence models.
- **Prohibited:** You may **not** use this dataset, or any models trained exclusively on this dataset, for commercial purposes, clinical diagnostics, or financial gain without prior written consent from the Dataset Providers.

2. Strict Non-Identification & Privacy

The dataset contains fully anonymized, de-identified microscopy images from human volunteers, adhering to national bioethical frameworks.

- The User explicitly agrees that they will **not attempt to re-identify** any volunteer, patient, or individual from whom the blood samples were derived.

- The User shall not apply any data-linking, reverse-engineering, or computational cross-referencing techniques to uncover any demographic or personal identities.

3. No Redistribution

The User agrees not to distribute, host, mirror, or sell the raw or annotated dataset, in whole or in part, on any third-party websites, public repositories, or cloud platforms. Any other individual or entity wishing to access the dataset must be directed to the official original repository hosted by the Dataset Providers.

4. Required Citation & Attribution

Any publication, conference paper, presentation, report, or open-source software code that utilizes, references, or trains upon this dataset must explicitly credit the joint collaboration by including the following mandatory academic citation:

[Insert Joint QAU-IBA Publication Citation Here once published] *Alternative interim citation:* "The dataset was provided courtesy of the Department of Biochemistry, Quaid-i-Azam University, Islamabad, and the Department of Mathematics & Computing, IBA, Karachi."

5. Termination & Compliance

This agreement terminates automatically if the User violates any of the terms outlined above. Upon termination, the User must immediately destroy all digital and physical copies of the dataset.
